

## May 22 - Paying for My Physiotherapy Treatment

For many people, health insurance providers cover all or a portion of the cost of private physiotherapist care. Some extended health insurance plans may require a physician's referral in order to reimburse you for physiotherapist service, but it's not always necessary. Call your health insurance provider to confirm your level of coverage beforehand and to ask about requirements.

Physiotherapy fees range from province to province and can vary with practice conditions. Physiotherapy services provided in a hospital clinic may be paid in full or in part by your provincial health plan. Provincial health plans do cover physio for patients who require hospital admission.
