

Physiotherapist

Description

At Do Well, we value collaboration, patient empowerment, and a passion for learning. Our ideal candidate is an individual who embodies these values and is excited to work alongside others to achieve our shared goals.

As a highly empathetic clinician, you understand the importance of collaboration and the value of different perspectives. Your ability to work well with others and contribute to a positive team environment is critical to the success of our company.

In addition, you are passionate about empowering patients and keeping their best interests in mind. Your dedication to patient-centred care ensures that every interaction is tailored to meet the unique needs of each patient, and that their voices are heard and respected.

Finally, you are motivated by a desire to learn and grow. Your commitment to ongoing education and professional development allows you to stay up-to-date on the latest industry trends and best practices, and to continuously improve your skills and knowledge.

Responsibilities and Duties

- Deliver a patient-centred care experience to every patient that walks through our door
- Assessing and treating a diverse range of conditions such as musculoskeletal injuries, neurological disorders, and other mobility issues
- Developing and implementing individualized treatment plans for patients
- Providing patient education on injury prevention, rehabilitation exercises, and home care management
- Collaborating with other healthcare professionals in our multidisciplinary team to provide comprehensive care for patients
- Maintaining accurate patient records and communicating with referring physicians or healthcare professionals as needed
- Participating in ongoing professional development and continuing education activities

Job Requirements

- Bachelor's or Master's degree in Physiotherapy from an accredited institution
- Current registration with the College of Physiotherapists of British Columbia
- Appropriate liability insurance
- Collaborative in cross referral with other healthcare professionals such as other RMTs and physiotherapists
- Collaborative with front of house team
- Experience working in a multidisciplinary clinic setting is an asset
- Strong communication and interpersonal skills
- Ability to work independently as well as part of a team
- Knowledge of exercise prescription and rehabilitation techniques
- Ability to use electronic medical record systems such as Janeapp

Who They Report To

Physiotherapists will report to our Clinic Director and Education Lead
